

# Science on the Move

SMART SYSTEMS

**Applications**  
Nov 2020–Jan 2021

**Competition**  
Feb–May 2021

Great ideas can become **GAME CHANGERS** in the fields of communication, technical inventions, scientific achievements or social interactions.

Share **YOUR** idea!

Work as a team and develop a **SMART SYSTEM** that contributes to making a change for the benefit of humanity.

Be **AMBITIOUS**: Your idea may be a product, a procedure, a whole system ...

Think **BROADLY**: Chemistry, biology, electronics, economics ... anything goes!

We welcome interdisciplinarity.

# Science on the Move 2021

The Swiss High School Class Competition in Science

## Applications

Nov 2020–Jan 2021

Open to all classes one or two years prior to the Swiss Matura (in general 10th and 11th school year) of high schools from all over Switzerland

## Phase 1

Feb–Apr 2021

All classes will develop, document and submit their idea for a smart system

## Phase 2

Apr–May 2021

The top 10 classes from Phase 1 will prepare for the Final Event: A live performance

## Final Event

4 June 2021

The top 10 classes from Phase 1 will battle it out at the Final Event at Roche in Basel/Kaiseraugst

## Science Week

5–11 Sep 2021

The winner class will spend a science week in London

## Science trips

2021/2022

Ranks 2–10 will be awarded 1- to 3-day science field trips in Switzerland

## Language

The competition is carried out in English to ensure equal chances for all language regions

Organised by the SimplyScience Foundation

Supported by Roche

Application forms for the competition will be mailed to all high schools
